

CAMPHO-PNEUMINE AMINOPHYLLINE SUPPOSITORIES

COMPOSITION:

Adults: aminophylline 0.15g, guaiacol ethyl glycolate 0.26g, camphor 0.1g, eucalyptol 0.05g, Amyleine hydrochloride 0.01g, hard fat q.s.p.

Children: aminophylline 0.06g, guaiacol ethyl glycolate 0.12g, camphor 0.04g, eucalyptol 0.03g, hard fat q.s.p.

PHARMACODYNAMIC PROPERTIES:

Campho-Pneumine Aminophylline suppositories combines the antiseptic properties of guaiacol ethyl glycolate, camphor and eucalyptol with the antispasmodic properties of aminophylline, which is useful in the treatment of broncho-pulmonary diseases accompanied by dyspnea.

INDICATIONS:

Broncho-pulmonary diseases with dyspnea:

- Tracheitis, tracheo-bronchitis, bronchitis with dyspnea, asthmatic bronchitis.
- Spasmodic and whooping-coughs.
- Respiratory diseases in elderly.

DOSAGE:

1 to 3 suppositories daily. The maximum treatment duration should not exceed 3 days.

CONTRA-INDICATIONS:

- Hypersensitivity to one of the active ingredients or to the excipient;
- Children less than 30 months;
- Children with history of epilepsy or febrile convulsions;
- Recent history of anorectal lesion.

PREGNANCY AND LACTATION:

This drug is not recommended during pregnancy nor during lactation.

SIDE EFFECTS:

Like all medicines, Campho-Pneumine Aminophylline may cause side effects. Tell your doctor if any of these symptoms are severe or do not go away: upset stomach, stomach pain, diarrhea, headache, restlessness, insomnia, irritability.

If you experience any of the following symptoms, call your doctor immediately: vomiting, tachycardia, arrhythmia, seizures, skin rash.

Due to the presence of camphor and eucalyptol, there is a risk of convulsions in children if the recommended doses are exceeded.

OVERDOSE:

Repetitive and prolonged use can cause rectal burning. In case of accidental oral intake or misuse in children, there is a risk of neurological disorders.

If necessary, an appropriate symptomatic treatment should be administered in a special care unit.

PACKING:

Campho-Pneumine Aminophylline suppositories are available in two forms:

Adults (over 15 years old).

Children (from 3 to 15 years old).

Box of 8 and 12 suppositories.
