

# PROCOMIL SPRAY

## LONG TIME SPRAY FOR MEN

**PROCOMIL SPRAY** is colourless and non-toxic in use.

**Composition per 100 ml:** Lidocaine Base USP 10 g

### **Indications:**

Local surface anaesthesia of skin and mucous membrane. Due to its excellent skin tolerability it can also be applied in case of premature ejaculation.

### **Contra-indications, side effects and adverse reactions:**

Have not been observed when **PROCOMIL SPRAY** is used as per prescription.

### **Application and dosage:**

If not otherwise prescribed **PROCOMIL SPRAY** is applied onto the relevant areas with 1 to 3 short sprayings according to the desired degree of anaesthesia. The effect becomes evident a few minutes after use already.

### **Caution:**

For external use only! Do not apply this product in case of known hypersensitivity to one of its ingredients.

**STORE IN A COOL PLACE; PROTECT FROM SUNLIGHT!**  
**KEEP OUT OF THE REACH OF CHILDREN!**
