

Famodar®*ABR* (famotidine USP 10mg tablets)

Acid Burn Reliever

Famodar *ABR* is a preparation containing a medicine, different from known antacids, that has been prescribed safely and effectively to treat people suffering from acid-related problems.

Famodar *ABR* is more effective than antacids with a longer duration of action.

Directions and uses:

At any time of the day and night.

- For RELIEF of heartburn, dyspepsia and sour stomach, swallow 1 tablet of **Famodar *ABR***.
- For PREVENTION of symptoms expected to happen after consuming definite meals and/or beverages, swallow 1 tablet 1 hour before consuming such meals or beverages.
- **Famodar *ABR*** can be used up to 2 tablets in 24 hours.
- Swallow with water (do not chew).

Warnings:

- Pregnant and nursing mothers should seek their physician's advice before using this product.
- Do not exceed the maximum daily dosage (2 tablets) for more than 2 weeks unless under the advice of your physician.
- If you have persistent abdominal pain, or troubles in swallowing, consult your physician promptly.
- This medicine should not be given to children under 12 years of age unless advised by a physician.

Storage Conditions:

Store in a dry place below 30°C. Protect from light.

This is a medicament.

- Medicament is a product which affects your health, and its consumption contrary to instructions is dangerous for you.
- Follow strictly the doctor's prescription, the method of use, and the instructions of the pharmacist who sold you the medicament.
- The doctor and the pharmacist are experts in medicine, its benefits and its risks.
- Do not, by yourself, interrupt the period of treatment prescribed.
- Do not repeat the same prescription without consulting your doctor.

Keep medicament out of reach of children.
