

GERIATON®

FORTE

Geriaton is a combination of active agents to restore physical and mental powers and to counteract the phenomena of wear and tear in different age groups.

COMPOSITION :

Ginseng extract	80.0 mg.	Niacin	15 mg.	Copper	1 mg.
Vitamin A	4000 I.U.	Pantothenic acid	10 mg.	Potassium	8 mg.
Vitamin B ₁	2 mg.	Rutin	20 mg.	Manganese	1 mg.
Vitamin B ₂	2 mg.	Iron	10 mg.	Magnesium	10 mg.
Vitamin B ₆	1 mg.	Calcium	90.5 mg.	Zinc	1 mg.
Vitamin B ₁₂	1 mcg.	Phosphorus	70 mg.	Cholin	33 mg.
Vitamin C	60 mg.	Fluoride	0.2 mg.	Inositol	33 mg.
Vitamin D ₃	400 I.U.				
Vitamin E	10 mg.				

PROPERTIES :

- **Geriaton** is an effective prophylactic and therapeutic preparation for cases of physiological and pathological symptoms of advancing age, as well as to counteract the typical stress symptoms due to physical and mental exertion in medium and younger age groups.

- **Geriaton** contains carefully balanced groups of active ingredients, which according to experimental and clinical research have a synergistic prophylactic and therapeutic action on the physical signs of wear and tear, as well as on the functional disturbances and psychological changes associated with the aging process. These substances are:

* Ginseng extract.

* Substances acting on the metabolism (vitamins, minerals and trace elements).

* Lipotropic substances (cholin, inositol).

- Ginseng extract gives **Geriaton** a stimulating "adaptogenic" action on the physical and mental performance, which means enhancement of the capacity of the individual to overcome outside strains by adaptation.

- The 20 most important vitamins, minerals and trace elements contained in **Geriaton** are present in dosages which cover the daily requirements of the individual. They help to overcome deficiencies which increase with aging due to unbalanced diet and poor resorption, and in medium and younger age groups due to physical and mental exertion (stress syndrome).

- Synergistic action of cholin, inositol with Ginseng extract improves the disordered fat metabolism and counteracts cholesterol deposits in the blood vessels.

INDICATIONS :

In cases of vitamin and mineral deficiencies.

DOSAGE :

The usual dosage of **Geriaton** is 2 capsules taken daily during the first 2 - 3 weeks, one capsule during breakfast and the other during lunch. After this period 1 capsule daily at breakfast. It is recommended to take **Geriaton** as a cure over several months, which may be repeated after a certain interval.

Older persons may take **Geriaton** continuously.

The capsules are best taken with a little liquid.

CONTRAINDICATIONS AND SIDE EFFECTS :

None known.

FOR DIABETICS :

The capsules do not contain sugar and are suitable for diabetics. In some cases of senile diabetes an improvement of the pathological carbohydrate intolerance was found. In such cases the daily dosage of antidiabetic preparations may be reduced under medical supervision.

PRESENTATION :

Bottles containing 15 and 25 soft gelatin capsules.

STORAGE CONDITIONS :

Protect from light. Store in a dry place below 25° C.

Keep medicament out of reach of children

THIS IS A MEDICAMENT

- Medicament is a product which affects your health, and its consumption contrary to instructions is dangerous for you.
- Follow strictly the doctors prescription, method of use and the instructions of the pharmacist who sold the medicament.
- The doctor and the pharmacist are experts in medicine, its benefits and risks.
- Do not by yourself interrupt the period of treatment prescribed for you.
- Do not repeat the same prescription without consulting your doctor.
