

ULTIVITE WOMEN

Forms and presentation

Coated Tablets; Boxes of 30 coated tablets – easy to swallow.

Composition

Each tablet contains:

.....

.....

Indications

For use as a nutritional supplement.

May help relieve pre-menstrual and menopausal symptoms, and improve stress adaptation.

Contraindications

In the presence of hemochromatosis, hemosiderosis, hemolytic anemia.

Precautions

Oral iron preparations may aggravate existing peptic ulcer, regional enteritis and ulcerative colitis. Oral iron preparations can impair the absorption of tetracycline antibiotics. Antacids given concomitantly with iron compounds decrease iron absorption.

Side effects

Rarely, in iron sensitive patients, mild gastro-intestinal upset may occur.

Dosage and administration

One tablet daily during or immediately after a meal or as directed by a healthcare professional.
