

Warnings:

Using more than one enema in 24 hours can be harmful.

Ask a doctor before using this product if you:

- Are on a sodium restricted diet
- Have a kidney disease
- Are pregnant or nursing a baby

Ask a doctor before using any laxative if you:

- Have nausea, vomiting, or abdominal pain
- Have a sudden change in bowel habits lasting more than 2 weeks
- Have already used a laxative for more than 1 week

Stop using this product and consult a doctor if you:

- Have rectal bleeding
- Have no bowel movement after the enema is given

These symptoms may indicate a serious condition.

Keep out of reach of children. In case of overdose or accidental ingestion, get medical help right away.

Professional Use Warnings:

Do not use in patients with congenital megacolon, bowel obstruction, imperforate anus, or congestive heart failure. Use with caution in patients with impaired renal function, pre-existing electrolyte disturbances or a colostomy, or in patients on diuretics or other medications that may affect electrolyte levels. Hypocalcemia, hyperphosphatemia, hypernatremia, or acidosis may occur.

Consult **PHYSICIANS' DESK REFERENCE®** for complete professional labeling.

CARTON SEALED FOR SAFETY. IF SEAL WITH FLEET EMBLEM ON TOP OR BOTTOM FLAP IS BROKEN OR MISSING, DO NOT USE.

See warnings.

Adults and Children 12 years and over	One Bottle
Children 2 to 11 years	Use Fleet® Enema for Children
Children under 2 years	DO NOT USE

Complete enema in a disposable squeeze bottle with soft, pre-lubricated Comfortip®

Fleet® Enemas are **LATEX FREE**. Allergic reaction to materials containing Latex is a growing and serious medical problem.

DIRECTIONS

Positions for using this enema:

- **Left-side position:** Lie on left side with knee bent, and arms resting comfortably.

- **Knee-chest position:** Kneel, then lower head and chest forward until left side of face is resting on surface with left arm folded comfortably.

How to use this enema:

- **REMOVE PROTECTIVE SHIELD FROM ENEMA COMFORTIP® BEFORE INSERTING.**

- With steady pressure, gently insert enema tip into rectum with a slight side-to-side movement, with tip pointing toward navel. Insertion may be easier if person receiving enema bears down, as if having a bowel movement. This helps relax the muscles around the anus.
- **Do not force the enema tip into rectum as this can cause injury.**
- Squeeze bottle until nearly all liquid is gone. It is not necessary to empty the bottle completely, as it contains more liquid than needed.
- Remove Comfortip® from rectum and maintain position until urge to evacuate is strong (usually 2 to 5 minutes).
