

CaloMalt Plus B1

Energy enrichment for infants, toddlers and adults with malnutrition

Protein and fat free

INDICATIONS

For the dietary management of a wide range of conditions where a high energy, low fluid, low electrolyte diet is required such as disorders in protein and amino acids metabolism, renal disease, liver disease and catabolic states.

DESCRIPTION

CaloMalt Plus B1 is a protein free, high caloric supplement with a low electrolyte content consisting of carbohydrates (maltodextrin) enriched with Vitamin B1. Vitamin B1 is needed for the metabolism of carbohydrates. CaloMalt Plus B1 is suitable for the dietary management in infants, children and adults.

RECOMMENDED USE

The daily amount of CaloMalt Plus B1 depends on age, body weight and individual metabolic condition. The dose of CaloMalt Plus B1 is to be monitored and adjusted by the physician regularly. Add required amounts of CaloMalt Plus B1 into fresh prepared warm or cold beverages or meals. CaloMalt Plus B1 doesn't change taste nor consistency of the feed. Prepare feed always fresh and discard unfinished feeds.

IMPORTANT NOTICE:

- Not suitable as sole source of nutrition
- Must be used under medical supervision
- Not suitable for parenteral use

Ingredients: Maltodextrin, Vitamin B1.

Net weight: 500 g

Shelf life: 24 months
