

COMIDA GAc A FORMULA

0 - 1 year
 Food for Special Medical Purposes
 For infants with Glutaric Aciduria Type I

- ü supplies a lysine free and tryptophan low amino acid mixture of high biological value
- ü contains lactose and LCP, free from sucrose
- ü provides vitamins, minerals and trace elements according to international standards
- ü is convenient and can be prepared easily (measuring scoop included)
- ü can easily be combined with breast milk or standard infant formula
- ü is hygienically safe and convenient

DESCRIPTION:

comida-GAc A formula is a lysine free and tryptophan low special infant formula. Its amino acid profile is close to that of human milk protein (except for lysine and tryptophan). comida-GAc A formula contains long chain polyunsaturated fatty acids (LCP), particularly important for a healthy development of newborns and young infants. comida-GAc A formula is supplemented with vitamins, minerals and trace elements according to current international recommendations.

INDICATIONS:

comida-GAc A formula is to be used in the dietary treatment of infants with Glutaric Aciduria Type I (Glutaryl-Co A dehydrogenase deficiency).

RECOMMENDED USE:

The daily amount of comida-GAc A formula needed to supplement the daily protein requirements (other than lysine and tryptophan), depends on age, body weight and individual tolerance for these amino acids. The dose of comida-GAc A formula is to be determined by a physician and must be adjusted regularly.

The daily amount required should be divided into 3 to 5 single portions and should be taken mixed with calculated amounts of other food (e.g. breast milk or standard infant formula).

Diets with comida-GAc A formula must contain adequate amounts of energy, essential fatty acids and lysine and tryptophan to meet daily requirements.

PREPARATION:

Preparation of a bottle-feed of comida-GAc A formula is as easy as with any infant formula: Just pour required amount of hot (50°C), previously boiled water into a feeding bottle, add the measured amount of comida-GAc A formula (scoop provided), close the bottle and shake well. Before feeding check the correct temperature.

Prepare bottle feed always fresh and discard unfinished feeds!
 Please monitor dental care, especially before bedtime!

IMPORTANT NOTICE:

- must be used under medical supervision
- for infants with Glutaric Aciduria Type I
- not suitable as sole source of nutrition
- not to be used by individuals without Glutaric Aciduria Type I
- not suitable for parenteral use
- not to be used by individuals with lactose intolerance

PREPARATION TABLE:

drinking volume	water	comida-GAc A formula		protein content
ml	ml	g	= number of scoops *	g protein-equivalent
35	30	4,3	1	0,51
100	90	13	3	1,5
200	180	26	6	3,1

* 1 scoop = approx. 4,3 g comida-GAc A formula

COMIDA GAc A FORMULA

INGREDIENTS:

Lactose, Vegetable oils, Maltodextrin, Starch, L-Arginine-L-Aspartate, L-Glutamine, Potassium-L-Glutamate, L-Proline, L-Leucine, tri-Calcium phosphate, Emulsifier E 472c, L-Isoleucine, L-Valine, tri-Potassium citrate, L-Serine, L-Threonine, L-Alanine, L-Phenylalanine, L-Tyrosine, Glycine, L-Cystine, L-Histidine, Sodium chloride, ARA-rich oil from Mortierella alpina, Magnesium carbonate, L-Methionine, Potassium chloride, Choline bitartrate, DHA-rich oil from the microalgae Schizochytrium sp., di-Calcium phosphate, Vitamins (A, D, E, K, C, B1, B2, Niacin, B6, Folic acid, Pantothenic acid, B12, Biotin), Magnesium-L-Aspartate, L-Tryptophan, Inositol, L-Carnitine-L-Tartrate, Taurine, Iron-II-sulfate, Zinc sulfate, Emulsifier lecithine, Antioxidants Tocopherol-rich extract and Ascorbyl palmitate, Manganese sulfate, Copper sulfate, Sodium fluoride, Potassium iodide, Sodium molybdate, Chromium-III-chloride, Sodium selenite.
