

CHROMAX

Capsules

SAFE WEIGHT LOSS

Composition :

Each capsule contains:

Garcinia Cambogia Fruit Extract	500 mg.
Chromium (as picolinate)	100 mcg.

Properties :

- Chromax is a breakthrough in natural weight loss. Chromax is a highly active, synergistic combination of Garcinia Cambogia extract and Chromium Picolinate which together with exercise and a balanced diet work with the body's own chemistry to effectively curb appetite and inhibit the production of fat specially for those who consume a rich carbohydrate diet.
- Garcinia Cambogia is rich in hydroxy citric acid, and helps to prevent formation of fats from dietary carbohydrates and helps *the excess* body fats to be used in energy production (increase thermogenesis). It also helps to control appetite by increasing the production of glycogen. Chromium picolinate makes the muscle cells receptor more sensitive to insulin, which allows the storage of more carbohydrates in the muscle cells as glycogen rather than in fat cells as protein, thereby helps to maintain healthy blood sugar levels.
- Chromax does not work through the central nervous system therefore it can be safely used in weight control regimens and diabetic patients, those with high cholesterol levels, obesity induced infertility and osteoarthritis patients.

Usages:

- For weight loss and weight control programs.

Precautions :

- Not to be used during pregnancy or lactation.

Dose :

- One capsule three times daily with water, preferably 30 to 60 minutes before meals.
- This dose regimen can be applied also for diabetic patients.
- Chromax may require 3 weeks to achieve significant effectiveness.

Storage :

Store in a dry place, at a temperature not exceeding 30°C.
Keep out of the reach of children.

Package :

Pack of 30 capsules.
