

comida **TYRo A** FORMULA

For the Dietary Management of Tyrosinemia in
INFANTS IN THE FIRST YEAR OF LIFE

- Supplies a phenylalanine and tyrosine free amino acid mixture of high biological value
- Contains lactose and LCP, free from sucrose
- Provides vitamins, minerals and trace elements
- Easy to prepare

DESCRIPTION

comida-TYRO A formula is a special infant formula based on an amino acid mixture free from phenylalanine and tyrosine. comida-TYRO A formula contains carbohydrates and long chain polyunsaturated fatty acids (LCP), and is supplemented with vitamins, minerals and trace elements.

INDICATIONS

For the dietary treatment in infants with tyrosinemia type I (Fumarylacetoacetate deficiency), tyrosinemia type II (tyrosine-aminotransferase deficiency) and tyrosinemia type III (4-hydroxyphenylpyruvate dioxygenase deficiency).

RECOMMENDED USE

The daily amount of comida-TYRO A formula needed depends on age, body weight and individual metabolic condition. The dose of comida-TYRO A formula is to be determined by a physician and must be adjusted regularly. The daily amount required should be divided into 3 to 5 single portions and should be taken mixed also with food or beverages allowed in calculated amounts.

Preparation table:

Drinking volume	Water	comida-TYRO A formula	Protein content
ml	ml	g	= No. of scoops*
35	30	4,3	1
100	90	13	3
200	180	26	6

* 1 scoop = approx. 4,3 g comida-TYRO A formula

IMPORTANT NOTICE:

- Not suitable as sole source of nutrition
- Must be used under medical supervision
- Not to be used by individuals without tyrosinemia type I, II and III
- For infants with tyrosinemia type I, II and III
- Not suitable for parenteral use
- Not to be used by individuals with lactose intolerance

comida-TYRO A formula is free from any preserving agent, colourings or sweeteners
