Combizym should not be used in cases of proven hypersensitivity to aspergillus-extracts with reactions in regard of the respiratory tract and the skin. In case of acute pancreatitis and acute phases of chronic pancreatitis Combizym should only be taken upon specific advice of the attending physician.

Side effects

Unknown up to now

Dosage and mode of administration

Unless otherwise directed, adults and children should swallow 1-2 coated tablets whole with their meals; if necessary the dose may be increased.

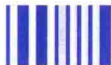

Notes

The drug should not be taken after its expiry date.

Medicaments should be kept out of reach of children.

Store below 30 °C.

Additional information

A combination of enzymes for digestive disorders, effective in the stomach and in the intestine

Combizym is a combination of vegetable and pancreatic enzymes. It replaces and supplements the essential endogenous enzymes needed for digestion of all food without complaints and stimulates the stomach and the pancreas to secrete their digestive juices. Combizym removes digestive disorders in a natural way and is well tolerated during constant use, too.

Presentation and package sizes

Commercial packs with 30 coated tablets.

– to be sold in pharmacies only –

THIS IS A MEDICAMENT

- A drug is a product which acts on your health and its consumption could be dangerous when you do not follow the instructions.
- Follow strictly the doctor's prescriptions, the method of use and the instructions of the pharmacist who sold the medication.
- The doctor and the pharmacist know the medicine, its benefits and risks.
- Do not by yourself interrupt the period of treatment prescribed for you.
- Do not repeat the same prescription without consulting your doctor.
