

## **Mild laxative and intestinal adsorbent**

### **Composition per tablet:**

Extr. Rhei	25,00 mg
Fol. Sennae	105,00 mg
Sulfur Depur	50,00 mg
Carbo Ligni plv.	180,00 mg
Aetherol, Menthae	0,50 mg
Aetherol, Foeniculi	0,50 mg

**Properties and action:** EUCARBON tablets contain only vegetable and mineral ingredients. EUCARBON stimulates the entire digestive system, has a mild laxative and spasmolytic effect and relieves gas pains.

**Dosage:** Adults: As a mild laxative, digestive and carminative agent: 1 to 2 tablets at or after meals with some liquid. If a stronger effect is desired, the evening dose should be raised to 3 or 4 tablets.

Children: from 2 years on: 1/2 to 1 tablet at meals.  
For X-ray purposes: 6 to 8 tablets in order to cleanse the digestive tracts and remove all gas.

**Indications:**

- Sluggishness of the bowels
- all forms of constipation
- fermenting and putrefying processes in the intestines
- meteorism
- flatulence (elevated diaphragm)
- intestinal autointoxication
- haemorrhoidal obstipation

**Contraindications:** In case of suspected stomach or intestinal ulcers, appendicitis and intestinal obstruction any kind of laxative should be avoided; patient is to consult a doctor immediately.

**Side effects:** If doses are properly adhered to, no side effects to be expected.

**Attention:** Overdose of laxatives may upset the water and electrolyte balance so that for instance the tolerance of digitalis compounds may be lessened.  
If the physician does not object, EUCARBON may also be taken during pregnancy.

**Presentation:** Original: 30 and 100 tablets  
Hospital: 1000 tablets

Keep away from children!
