

ABBOTT LABORATORIES

Beirut, January 4, 1999

Dear Doctor / Pharmacist,

Abbott Laboratories are glad to inform you that "Citro Soda" is back with a new name: "URAL[®]".

Being an urinary and gastric alkalinizer, "URAL[®]" is the new form of the "gold standard" treatment and is now available at your disposal.

Composition:

Each 4g sachet contains:

- Sodium Bicarbonate
- Sodium Citrate
- Citric Acid
- Tartaric Acid

Also contains nature identical lemon flavor Oil, Terpeneless and Sachharin Sodium (Sugar Free).

Indications:

1. Cystitis

URAL[®] relieves the discomfort of cystitis

URAL[®] extinguishes the burning sensation

URAL[®] enhances antibiotic efficacy in bacterial cystitis (Streptomycin, Kanamycin, Gentamicin)

2. Gout:

URAL[®] is indicated in gout especially when treated with uricosurics and possibly Allopurinol

URAL[®] also prevents uric acid stone formation by alkalinizing the urine

URAL[®] is the first line therapy for raised acid urine

3. Heartburn:

URAL[®] works against gastric acidity

URAL[®] brings relief from discomfort of indigestion or heartburn

URAL[®] encourages fluid intake

Dosage and Administration:

4g to 8g (1 to 2 sachets) dissolved in cold water 4 times daily or as prescribed.

Presentation:

Effervescent granules, 28x4g sachets per pack.

We believe that only with your experience and taking the advantage of prescribing URAL[®], will it be possible for you to determine the above.

We are at your disposal for any further clarifications and will soon visit you to discuss URAL[®] in detail.

Sincerely yours.

ABBOTT LABORATORIES, LEBANON
