

HealthAid JuniorVit - Chewable (Tutti-fruity Flavour) (Age 2 plus) Blister

JuniorVit Tablets are designed to combat today's modern lifestyle where children are often subjected to fast food diets, which may lack vital supplements or are not nutritionally well balanced. Junior-Vit Tablets are specially formulated to help provide many of the extra vitamins, minerals and trace elements needed for helping to maintain your child's healthy growth and development. Tutti frutti flavour.

HealthAid JuniorVit Tablets may be of benefit to:

- Children who do not obtain sufficient nutrients from their diet due to poor eating habits
- Children lacking in energy
- Children who have difficulty with swallowing tablets
- Athletic children or those who do regular sporting activities at school
- Children on medication or those recovering from illness
- Children who generally lack mental stimulation, focus and concentration

When Should I Take HealthAid JuniorVit Tablets?

Junior-Vit Tablets can be taken on a daily basis for general good health and wellbeing, boosting the immune system, providing energy and strength whilst supporting mental focus and concentration

Recommended Daily Intake of HealthAid JuniorVit Tablets:

Children over 2 years of age, chew one tablet daily. Children over 6 years of age can be given two tablets daily. Do not exceed recommended daily intake unless advised by a suitably qualified person.

† This product contains iron, which if taken in excess, may be harmful to very young children. Keep out of sight and reach of children.

** Food Supplements should not be used as a substitute for a varied and balanced diet and healthy lifestyle.
