

VASELINE
Pure Petroleum Jelly
Skin Protectant

Composition: White petrolatum U.S.P.

Indication: A soothing protectant for minor skin irritations such as burns, scrapes, abrasions, chafing, detergent hands, dry or chapped skin, and sunburn. Provides temporary relief of external hemorrhoids & scaling due to psoriasis. Helps prevent diaper rash. Soothes chapped skin and temporarily soothes minor sunburn due to its emollient and lubricant properties. Helps prevent and heal dry, chapped sun and wind burned skin.

Directions: Clean affected areas with soap and water prior to application, then apply generously to provide a continuous protective film. Apply as needed, before, during and following exposure to sun, wind, water, and cold weather.

Uses: For external use only.

Warning: Not meant for puncture wounds, serious burns, or cuts.

How Supplied: Aluminium tube of 15g.
