

SEPTISOL®
Brand of Triclocarban
Medicated Antiseptic Liquid Soap

DESCRIPTION:

SEPTISOL®, brand of Triclocarban is a medicated antiseptic and detergent liquid soap.

PROPERTIES:

Antiseptic and detergent liquid soap, contains Triclocarban which is a bacteriostatic agent active against gram positive bacteria and some fungi commonly encountered on the skin.

PHARMACOKINETICS:

Triclocarban is very slightly absorbed through the skin.

INDICATIONS:

Recommended for dermatological, gynecological, pediatric and surgical applications. May be used as an adjuvant treatment in: Acne, Pityriasis versicolor and Pityriasis of the scalp.

CONTRAINDICATIONS:

Hypersensitivity to one of the components.

PRECAUTIONS:

- Avoid any contact with eyes.
- Do not use hot water ($> 50^{\circ}\text{C}$) because heat may destroy triclocarban.

DRUG INTERACTIONS:

Do not use concomitantly with other antiseptics.

DOSAGE & ADMINISTRATION:

SEPTISOL® may be used as a soap or may be diluted in lukewarm water (15 mL/Litre). Rinse thoroughly after use.

FOR EXTERNAL USE ONLY.

AVAILABILITY:
