

BRUMIXOL®

BRUSCHETTINI CICLOPIROX OLAMINE

ANTIMYCOTIC FOR VAGINAL USE

Composition

Vaginal suppositories ("ovules"): 100 mg of ciclopirox olamine each suppository.

Ciclopirox olamine, the active principle of BRUMIXOL, shows a strong antimycotic activity against a wide range of mycetes: dermatophytes (*Trichophytus*, *Epidermophytus*), moulds, yeasts (*Candida*, *Torulopsis*), etc. Moreover, ciclopirox olamine shows a clear activity against gram positive germs (*Streptococcus*, *Stafilococcus*) and it is particularly suitable for treatment of mixed infections.

Ciclopirox olamine is an antifungal product different from imidazolic derivatives (like clotrimazole, etc.), endowed with a special way of action including a powerful activity inhibiting the energetic metabolism of the concerned pathogenic microorganisms.

Indications

Vaginal fungal infections, vaginal infections sustained by *Candida*.

Contra-indications

Hypersensitiveness to ciclopirox olamine.

Tolerability and warnings

BRUMIXOL for vaginal use is very well tolerated at usual doses: just transient itching or irritation may occur quite rarely, without other side-effects.

BRUMIXOL does not interfere with other treatments.

During the treatment with BRUMIXOL, the hygienic measures suggested by the Physician must be strictly followed.

In pregnant women BRUMIXOL must be administered only in case of necessity under direct medical control.

Treatment should be continued during menstruation.

Way of administration

Introduce deeply in vagina one vaginal suppository of 100 mg daily, preferably when going to bed.

With reference to the seriousness of the infection, the treatment can be continued for a maximum of 6 days, or, according to medical prescription, it can be reduced to 3 days using 2 suppositories daily, one in the morning and the other in the evening.

It is recommended to wash carefully the concerned parts.

It may be advisable to associate the employ of vaginal suppositories with BRUMIXOL cream and to treat also the partner with cream, during the vaginal treatment.

Packing

VAGINAL SUPPOSITORIES ("Ovules"): 6 Vaginal suppositories containing 100 mg of ciclopirox olamine.

Keep out of the reach of children
