

# Rhinostop

## Oral Drops

**For the Relief of Nasal Congestion  
Free from Sugar and Dyes**

### Composition:

Each 1 ml contains:	Pseudoephedrine hydrochloride	25 mg
	Carbinoxamine maleate	2 mg

### Properties

- \* Pseudoephedrine hydrochloride is an oral sympathomimetic which exerts a vasoconstrictor effect on the blood vessels of the nasal mucosa when they are dilated as a result of inflammation.
- \* Carbinoxamine maleate is an antihistaminic which reinforces the decongestant activity of pseudoephedrine, and blocks the pathogenic mechanism of allergic rhinitis.
- Rhinostop reduces swelling of membranes, relieves congestion, stops excessive secretion and consequently, decreases the risk of infection of the paranasal sinuses.
- Rhinostop Oral Drops is a systemic decongestant, which unlike nasal solutions or sprays, its effect is not confined to the nasal mucosa.
- Rhinostop acts on the upper respiratory tract and does not cause local irritation or rebound congestion.

### Indications:

Relief of nasal congestion, runny nose, sneezing, itching of nose or throat, and itchy watery eyes due to common cold, hay fever, or other upper respiratory allergies.

### Contraindications:

Hypersensitivity to any component of the preparation, gastrointestinal or genitourinary obstruction, narrow angle glaucoma and severe hypertension.

### Adverse reactions:

As other sympathomimetics and antihistaminics, this medication might causes mild undesirable symptoms such as skin rashes, drowsiness, dry mouth, blurred vision, tachycardia.

### Precautions:

- \* Other medications containing sympathomimetic agents should not be taken simultaneously with Rhinostop.
- \* Caution should be taken with patients suffering from diabetes mellitus or hyperthyroidism .
- \* If symptoms do not improve within 7 days or are accompanied by fever, consult a doctor.

### Dosage:

- \* Do not use for children less than six years old.

**Children:** One full calibrated dropper every 4 - 6 hours by mouth.

- \* Can be added to juices.

### How supplied:

15 ml bottle with a calibrated dropper.

### Storage:

- \* Store at room temperature.
- \* Protect from light.
