

VISCOFLU *sachets*

N-acetyl-L-cysteine
promelase (Serrazimes®)
vitamin C and riboflavin

granules for oral suspension
with fructose and sweetener

20 sachets of 3 g each

Ingredients:

fructose; N-acetyl-L-cysteine; vitamin C (L-ascorbic acid); aromas; acidifier: citric acid; promelase (Serrazimes® - proteolytic enzyme from fermented maltodextrines).

Anti-caking agent: silicon dioxide; bulking agents: hydroxypropylmethylcellulose, microcrystalline cellulose; sweetener: acesulfame K; vitamin B2 (riboflavin).

Packaging and content:

20 sachets, each containing 3 g of granules for oral suspension.

Indications:

VISCOFLU contains N-acetyl-L-cysteine associated to promelase (Serrazimes®, proteolytic enzyme derived from the controlled fermentation of maltodextrin through *Aspergillus oryzae* and *Aspergillus melleus*), with vitamin C and riboflavin, useful to help and protect cells from oxidative stress and, respectively, to contribute to the efficiency of the immune system and to support the correct function of mucous membranes.

Recommended dose:

Children > 3 years old: 1 sachet per day.

Adults: 2 sachets per day.

Warnings: do not give **VISCOFLU** to children under 3 years old. Do not exceed the recommended dose per day. Keep out the reach of children.

Supplements are not intended as a substitute for a balanced and varied diet and a healthy lifestyle.

Storage conditions: Do not store above 30°C, avoid exposure to localized heat sources and humidity. The expiry date refers to the product unopened, properly stored.

Notice: the presence of dark-colored residues in the suspension does not indicate an alteration of the product.

Manufactured by: S.I.I.T S.r.l, Italy

Exclusively for: Pharma Line S.r.l., Via Bertani, 2 Milan, Italy
