Food supplement for the eyes
HELPS PROTECT AGAINST «RETINAL STRESS»

Lagad Retina® is made up of antioxidants, vitamins, minerals and essential fatty acids which help to protect ts of ageing, light and deficiencies that can occur when diet is not balanced, not varied enough, or poor in fruit, vegetable, fish.

Manufacturing Quality :

Lagad Retina® is manufactured in France in a State of the Art pharmaceutical factory.

Microencapsulated zinc :

Lagad Retina® Softgels are individually packed in a foil blister strip and stored in a temperature controlled warehouse in order to ensure a maximum protection against oxidation.

Fish Gelatine:

Lagad Vision Softgels are exclusively coated with fish gelatine.

Easy to Swallow – Easy to Digest :

The unique es* design and the fish gelatine softness make the Lagad Retina® Softgels particularly easy to swallow.

The extreme quality of the Lagad Vision fish oil, the antioxidant Technology used in order to protect the marine Omega-3 from oxidation give Lagad Retina® Softgels the following properties:

- Odourless Softgels
- Preserved nutritional and organoleptic Quality
- « Good » polyunsaturated fatty acids are not converted into “bad” Trans fatty Acids.

Choice of ingredients & sustainable development :

All Lagad Retina® Softgels ingredients are carefully selected. Our suppliers of ingredients come from High Tech countries with very high Health regulatory standards.

Our quality labels :

OmegaGlove® : OmegaGlove® : The Lagad Vision Fish oil is manufactured by Polaris, a company from Brittany with a worldwide reputation for high-quality and its recognised Research & Development Expertise. Polaris is vertically integrated with no need to outsourcing in order to provide a continuous operation ensuring quality control straight from the fishing boat to the finished Omega-3 ingredient.

QualitySilver® : The **QualitySilver®** Technology protects and stabilises PolyUnsaturated fish oil against oxidation in order to preserve the oil nutritional and organoleptic qualities. QualitySilver® Oils are 2 to 13 times more stable than non **QualitySilver®** processed oils.

FloraGlo® : FloraGlo Lutein is naturally sourced, unesterified lutein with an established reputation for quality, safety and efficacy, est une lutéine non esterifiée d'origine naturelle (Tagetes Erecta – œillets d'inde cultivés dans un environnement « bio »)avec une réputation bien établie pour ses standards de qualité, de sécurité et d'efficacité. FloraGlo® comes from Pesticide-free farming operation. Marigold Flowers are grown and harvested in organic environment.

Bioastin® : The Bioastin® label guarantees the quality of the Lagad Vision natural Astaxanthin. The natural Astaxanthin is extracted from Haematococcus microalgae grown on the pristine Kona Coast of Hawaii's Big Island by the world's leader in microalgae technology. The culture of Microalgae is ceresticide and Herbicide free and guaranteed GMO free.
