

# CETAPHIL

High Tolerance skin cleanser

## Form and presentation

Cleansing lotion for sensitive skins : 200 mL bottle.

Bar for sensitive skins : 125 g

## Composition

Lotion : Sodium cetostearyllic-laurylsulphate complex, excipients.

Bar : sodium cocoyl isethionate; moisturizing agents : PEG-20, petrolatum, sodium isostearoyl lactylate, sucrose laurate, excipients.

## Properties

- Cetaphil lotion is an original formula which allows a gentle cleansing for sensitive and irritable skins.

By its lipid-free and soap-free composition, Cetaphil lotion is extremely well tolerated, even by the most sensitive skins. Due to its softening and emollient activities, Cetaphil lotion render the skin supple and soft.

- Cetaphil bar is a gentle cleansing bar characterised by an excellent tolerance, due to its High Tolerance cleansing agents, its neutral pH and its moisturizing agents.

## Indications

- Dry, sensitive skins unable to tolerate traditional cleansing products (soap, lotion, ..), ageing skins.
- Skins dried or irritated by dermatological treatments.
- Skin with acne, eczema, atopic dermatitis, ichthyosis.
- Babies' skins.

## Dosage and administration

- Lotion : apply Cetaphil lotion to the skin, massage in a circular motion; wipe off remaining lotion with a tissue, cotton or damp wash cloth without rubbing.
- Bar : the bar is well adapted by its formulation to be used both for the face and the body.
